

Ryan Blackwood

Electrical Assembly • Diagnostics • Technical Systems
ryan.j.blackwood@gmail.com | Bloomington, MN

SUMMARY

Hands-on technician with experience supporting production environments, troubleshooting technical systems, and maintaining organized workflows. Detail-oriented and mechanically inclined with a strong focus on quality, efficiency, and clean execution.

CORE SKILLS

- Electrical & mechanical assembly
- Electrical schematics & drawings
- Hand & power tool operation
- Electronics troubleshooting
- Workflow/process improvement
- Material handling & organization
- 3D printing & CAD (FreeCAD)
- Computer systems diagnostics

EXPERIENCE

Detector Electronics — Material Handler

Oct 2024 – Present

- Support manufacturing and production operations through accurate material handling and inventory control
- Maintain organized material flow to improve efficiency and reduce production errors
- Collaborate with production and engineering teams to support production readiness

Best Buy — Warehouse Team Lead

Aug 2021 – Apr 2023

- Led inventory and logistics operations while maintaining productivity and accuracy
- Improved workflow efficiency and coordinated daily operations

Geek Squad — Repair Agent

Feb 2020 – Aug 2021

- Diagnosed and repaired hardware and technical issues
- Maintained quality standards and verified functionality

Geek Squad — Consultation Agent

Jun 2018 – Feb 2020

- Developed troubleshooting, communication, and problem-solving skills

TECHNICAL PROJECTS

- Designed and built homelab infrastructure utilizing VLANs, routing, and network management
- Built and diagnosed custom computer systems and hardware configurations
- Designed and fabricated functional parts using CAD and 3D printing technologies

EDUCATION

Pinellas Gulf Coast Academy — High School Diploma (2020)
